

The Welcome Home Initiative[©]

“Walls which once seemed too high to scale, crumble in the face of common shared experience.”

We demolish arguments and every pretension that sets itself up against the knowledge of God, and we take captive every thought to make it obedient to Christ.

What is

The Welcome Home Initiative?

The Welcome Home Initiative© is a healing program for military veterans and spouses of those veterans who have served their country in combat and may be suffering in varying degrees from Post-Trauma Stress or Moral Injury.

The Welcome Home format is designed to bring about awareness of this hidden impact of combat service upon veterans and their families, assuring them of a welcoming and safe place for emotional healing. The sessions are designed to assist combat veterans and their spouses to accomplish essential spiritual and emotional healing from combat related post traumatic stress (PTSD), as a complement to medical, psychiatric and social services already in place. The program is geared to help every participant know and experience that they are "Welcome Home" in every sense.

The program comprises a series of talks, designed to give an overview of healing PTS and Moral Injury, including:

- * Resources for coping and recovery
- * The importance of telling your story (and how to do so effectively)
- * The healing of memories
- * Impact of Post-trauma stress upon family and other close relationships.

The connections and friendships that are formed during these retreats are outstanding. Participants find equal footing and experience camaraderie, regardless of their rank or branch of service.

CBN TV has featured the WHI program, on "The 700 Club."
